UPPER

Water repellent and breathable Nubuck grain leather with scuff-cap.
SAFETY STRUCTURE, external reinforcement on the back heel for greater posture stability and high visibility Reflex insert

LINING

WINTHERM - Breathable fabric with internal aluminum microfilm that keeps the foot temperature constant. Insulating, antistatic, antibacterial. Insulates the foot from cold and heat

INSOLE

TERM-SOFT Thermoformed Needle-tufted felt and aluminium fabric that is antistatic, antibacterial, breathable and absorbent. It isolates against cold and heat. Shock absorbing heel and arch support.

SOLE

PU/PU DUAL DENSITY BASF PUR Elastopan® polyurethane foam insole, ensures the maximum comfort and the absorption of the impact on all surfaces. Polyurethane outsole, with an elevated grip, resistant to wear, oils and hydrocarbons. System of energy absorption on the heel. It leaves no mark on the surface.

LAST

The anatomical shape of the injected sole, unlike removable insoles, is inalterable for the entire lifetime of the shoe. The Anatomic sole, following the natural morphology of the foot, provides a natural support to all its points, ensuring maximum comfort

TOE CAP

The **POWER CAP** is in multilayer fiberglass and rubber particulate. It stands out for its robustness and lightness, guaranteeing a shock absorption up to a max. 200 Joules. Being metal-free it is undetectable by a metal detector, and helps to maintain a constant body temperature. It provides maximum safety even at extreme temperatures above and below zero, providing a thermal insulation that is better than aluminum or steel toe-caps. It exceeds the EN- ISO 12568 requirements.

MIDSOLE

SHIELD-TEX- Non-metallic antistatic, flexible, anti-perforation fabric insole, built with several layers of high-tenacity fibres. Compliant with: EN ISO 20345:2022

ANTI-TORSION SUPPORT

COMPOSHANK Anti-torsion support in ABS. It is applied between the antiperforation midsole and the midsole, corresponding to the arch of the foot. It improves stability on ladders, where foot support is not complete.

ANTI-STATIC DEVICE

SILVER STRIP DISCHARGE (SSD) Conductive cotton tape and silver threads inside the upper and in contact with the foot. It is an anti-static device that guarantees greater safety than the standard, increases the dispersive capacity of the electrostatic charges throughout the life of the shoes.

WEIGHT SIZE 42 760 gr

SIZES 38-48

TERM-SOFT

FEATURES

SHOCK ABSORPTION IN THE HEEL	OIL AND HYDROCARBONS RESISTANT SOLE	TOE CAP
NO MARKING SOLE	ANTISTATIC FOOTWEAR	BREATHABLE UPPER
