I/C/PR/SR/EH

### ESR CERTIFICATION

outsoles certified in accordance with the Canadian **CSA Z195-14** and **ASTM F2413-24** standards

### FEATURES

SHOCK ABSORPTION IN THE HEEL	OIL AND HYDROCARBONS RESISTANT SOLE	TOE CAP
NO MARKING SOLE	WATER-REPELLENT UPPER	BREATHABLE UPPER
ANTIPERFORATION MIDSOLE	HRO- HEAT RESISTANT SOLE (300°C)	

### PLUS

### TECHNOLOGIES

COMPOSHANK	POWER CAP
PLASMAFEEL	ANATOMIC SOLE

<b>UPPER</b>	Water-repellent and breathable nubuck-type microfiber; resistant to tearing and tensile stress.
<b>LINING</b>	<b>PLASMAFEEL</b> - Lining in 3D fabric that keeps the foot constantly cool and dry thanks to the instantaneous absorption of sweat and its immediate dispersion outside of the shoe. Breathable, antibacterial, resistant to wear and abrasion.
<b>INSOLE</b>	<b>ISO-TECH</b> - Thermoformed. Runresistant, multi-layered fabric, that is antibacterial, breathable and absorbent with anti-fungus activated carbons. Shock absorbing heel and arch support.
<b>SOLE</b>	<b>PU/RUBBER DIELECTRIC-BASF PUR Elastopan®</b> polyurethane foam insole, ensures the maximum comfort and the absorption of the impact on all surfaces. Rubber outsole, with an elevated grip, resistant to up to a <b>300°C (HRO certified)</b> , guarantees the maximum levels of slip resistance. Resistant to corrosion by oils and hydrocarbons. It leaves no mark on the surface.
<b>LAST</b>	The anatomical shape of the injected sole, unlike removable insoles, is inalterable for the entire lifetime of the shoe. The <b>ANATOMIC SOLE</b> , following the natural morphology of the foot, provides a natural support to all its points, ensuring maximum comfort
<b>TOE CAP</b>	The <b>POWER CAP</b> is in multilayer fiberglass and rubber particulate. It stands out for its robustness and lightness, guaranteeing a shock absorption up to a max. 200 Joules. Being metal-free is undetectable by a meta detector, and helps to maintain a constant body temperature. It provides maximum safety even at extreme temperatures above and below zero, providing a thermal insulation that is better than aluminum or steel toe-caps.
<b>MIDSOLE</b>	Non-metallic textile anti-perforation insole, built with multiple layers of high-tenacity fibres. Insulating, lightweight, flexible. Ensures perfect thermal insulation. Compliant with: EN ISO 20345:2022+A1:2024
<b>ANTI-TORSION SUPPORT</b>	<b>COMPOSHANK</b> Anti-torsion support in ABS. It is applied between the antiperforation midsole and the midsole, corresponding to the arch of the foot. It improves stability on ladders, where foot support is not complete.

WEIGHT SIZE 42 620 gr

SIZES 38-48
