**Subject: REACH - COMMUNICATION TO CUSTOMERS REGARDING THE APPLICATION OF REGULATION (EC) 1907/2006**

Regulation No. 1907/2006 (REACH) concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals entered into force on 01/06/2007.

Panther SRL, as a manufacturer of articles, has conducted an analysis of its production cycle and the products supplied to you, reaching the conclusions outlined in this document.

This communication is based on analyses and/or certifications from our suppliers or tests conducted by third-party laboratories.

Our company is not subject to registration obligations because we do not manufacture or import chemicals.

As a downstream user of substances, Panther SRL has requested information on the substances purchased from all its suppliers.

Based on the information received from suppliers, Panther SRL will identify any critical issues in the supply of substances and take timely actions in the market to ensure continuity of supply to your company.

As a supplier of articles, Panther SRL has concluded that the articles purchased by you do not release substances under normal or reasonably foreseeable conditions of use, and therefore do not require registration with ECHA.

The updated list of candidate substances can be consulted on the ECHA website at the following address:  
<https://echa.europa.eu/it/candidate-list-table>

We remain at your disposal for any further clarification needed.

Best Regard

Giovanni Cilenti

CEO

Panther SRL
